Note: This is not the official application for a license – the application will be available after completing all pre-licensing requirements with an SFTA technical consultant.

Once your application is accepted and complete, you will be contacted by the Department of Children and Families (DCF) and be registered to attend a mandatory Family Tool Kit session. After attending the required Tool Kit session, you'll be contacted by DCF to set up an appointment to inspect your home for health and safety compliances. DCF makes all final decisions to approve or deny a new application. DCF will contact applicants in writing regarding their decision.
